- Grammar Matrix extensions (clausal modifiers, clausal complements)
- Integrating and extending the inference code
- Making our intermediate outputs useful for field linguists
 - MOM + MOM UI
- Automatic generation of IGT (EL-STEC baseline,  McMillan-Major)

567 2019—AGGREGATION-based?

- Field languages only
- Start with inference-created choices files
- Need to recruit field linguists to share their data
